

Painting of the year

2024

Jury Reports

Artist: Koen Ketelaars

Title painting: Geef me pasta 2

Screen printing is a special technique. Made up of many layers. The artist knows what he is doing. How beautifully the two colours of yellow express the paste. With the two colours of red interwoven in between. Throughout the work, all those little white islands play an important role. They bring dimension to the work. Right down to the white in the eyes. Simple in its colouring but, precisely because of that, a very strong work. Composition and execution make this screen print a strong work.
